LITTLE MARQUETTE

Playful or sophisticated, vibrant or subdued, you determine Little Marquette's personality by selecting a design from our cut-out work book and colors from freshcoast wood finishes. These sturdy little stackers offer the same proven durable construction found in the adult model. The laminated hardwood shell and steel rod sled base create a stable chair that is light weight and easily transported by little people.

Little Marquette chairs and tables are everything you would expect from such a distinguished family. Design: Seating, Leland Design Group; table, 2B Studio

Little Marquette chair arc shell, circle cut-out.

Little Marquette chair crescent shell, triangle cut-out.
