MANITOU

IT'S BUSINESS TIME

Manitou dons its business suit—upholstery—to enhance any office space. Manitou brings all the fun and flexibility for which it's known, then dresses up with any of its many upholstery options to complement the office décor and help encourage productivity. Upholstered Manitou is the perfect blend of nature and the workplace.

MEET FOR LUNCH

A consistent, natural aesthetic creates the perfect invitation to café and dining settings. The Manitou View uses nature-based graphics to establish a cohesive theme among the set without feeling repetitive, as each graphic is similar but not identical. The graphics, which can be fully customized, distinctly characterize a space and attract visitors to not only stay for a bite, but to return for another.
